LEARNING WORKS

ADULT LEARNING

INTRODUCTION

These days, getting into learning needn't mean sitting in a classroom - you could learn at your local library or a community centre, through volunteering or in front of a computer.

Want to learn new skills but wondering which course to go for? There are hundreds of courses being delivered across the district. There's bound to be one to suit your particular needs. Trying one of our courses could be the first step to developing an enjoyable hobby, learning new skills, meeting new friends or getting more active.

Many courses are aimed at complete beginners and have no entry requirements - other than a willingness to learn. Doing a course can boost your self-confidence and it can improve your chances of finding a new job. Many courses also lead to a qualification, which can prove to an employer that you've gained knowledge and developed certain skills.

If you need help with your CV, job search skills, interview techniques or with completing an application form then there is help available from specialist agencies.

This booklet gives you information about what help and support is available from different agencies and organisations in Kirklees.

COMMUNITY LEARNING CHAMPIONS

Champions are volunteers who encourage adults to get into learning and training by helping them overcome the barriers they face.

They are often local people based within an identifiable community such as a neighbourhood and are often based in a community setting.

COULD YOU BE A CHAMPION?

To find out more about Champions, and how to become one, please contact one of our Community Learning Mentors:
