NEW YEAR, NEW OPPORTUNITIES

Are you interested in learning?
Want to sign up for a new course?
Then Community Learning Mentors can help

Community Learning Mentors offer support to learners so they can succeed in their learning aims. They also help learners move on to other forms of learning within local community venues or to Kirklees College.

Community Learning Mentors develop strong working relationships between Community Centres, Kirklees College and other learning providers so that learners can access the courses that suit them.

Whatever your learning needs, there is a
Community Learning Mentor near you.

Supported by Neighbourhood Learning in Deprived Communities Programme
